

DREAMFIBRE
AND TEXTILE
CARE
CLEANING KIT

NATUZZI

Dreamfibre and Textile Cleaner

For all types of fabric and microfibre that can be washed in water. Do not use on dry clean only fabrics.

Description: DREAMFIBRE AND TEXTILE CLEANER is a water-based product designed to clean microfibres and fabrics delicately and effectively.

Pre-test: for best results, shake the bottle well before use. It is necessary to test the product with a soft white cloth on a hidden area before use. Check that no residue stains are left after drying. If you are not satisfied with results, do not use.

Use: DREAMFIBRE AND TEXTILE CLEANER removes dirt, grease and water stains.

First, try to remove as much of the excess dirt as possible using a non-abrasive paper towel. To avoid working the dirt further into the microfibres and fabrics, approach stains from the outer edges and try to lift the dirt off with an upward movement. Shake the bottle vigorously and apply DREAMFIBRE AND TEXTILE CLEANER to the microfibre glove. Delicately swab the stain with the glove using a circular movement from the outer edges inwards. In very dirty areas it may be necessary to repeat the operation using more product .

Swab off the excess liquid using paper towel. Leave to air dry naturally or use a hair drier held at a distance from the surface of the microfibre and fabric. During drying fluff up the surface of the microfibre and fabric with your hand. If stains persist consult the retailer or contact the number [UK] +44 1235 444754 - www.valsparuk.com - [AUS] +61 2 84845200 or send an email to info@lillyindustries.com.au.

Once dry, renew the microfibre and give back the characteristic writing effect by using the soft dry sponge. Pass the sponge over the dry microfibre with alternating movements without rubbing aggressively.

Attention: Do not swallow. Keep away from children. Avoid contact with eyes. In case of contact flush with water. Wash hands after use.

Dreamfibre and Textile Protector

For all types of fabric and microfibre that can be washed in water. Do not use on dry clean only fabrics.

Description: DREAMFIBRE AND TEXTILE PROTECTOR is a very advanced product able to slow down the absorption of water, oil, alcohol and greasy stains on microfibres and fabrics. Application of DREAMFIBRE AND TEXTILE PROTECTOR makes it easier to remove stains that are otherwise difficult to remove. DREAMFIBRE AND TEXTILE PROTECTOR forms an invisible barrier that slows down the absorption of dirt and facilitates cleaning.

Pre-test: for best results, shake the bottle well before use. It is necessary to spray DREAMFIBRE AND TEXTILE PROTECTOR on a hidden area before use. Check that no darkening remains after complete drying. In case of a darker colour, ring marks or if you are not satisfied with the results, do not use.

Use: DREAMFIBRE AND TEXTILE PROTECTOR is easy to apply and results are remarkable. Shake the bottle vigorously. Substitute the tap with the trigger contained inside the kit. Apply a light coat of DREAMFIBRE AND TEXTILE PROTECTOR on all of the surface of the microfibre or fabric. Protect areas that receive most wear very well. A second light coat may be applied. It is advisable to spray the product in the evening and leave to dry overnight. Leave to air dry naturally.

Attention: Do not swallow. Keep away from children. Avoid contact with eyes. In case of contact flush with water. Wash hands after use.

Recommendations for maintaining the natural beauty of your Natuzzi sofa:

■ Remove dust regularly using a vacuum cleaner and revive surfaces with the dry sponge.

■ Avoid prolonged exposure to direct sunlight which fades all materials.

If you are unable to remove dirt and stains using the products contained in this kit, it is not advisable to use other products or to rub vigorously. To avoid serious damage we suggest you consult your dealer.

To avoid irreparable damage to the sofa, we suggest you consult the retailer or contact the number [UK] +44 1235 444754 - www.valsparuk.com [AUS] +61 2 84845200 or send an email to info@lillyindustries.com.au.
